Education

Maharaja Agrasen Institute of Technology, GGSIPU
Bachelor of Technology in Computer Science and Engineering

Expected Graduation Year: 2025
GPA: 8.45/10

Relevant Courses: Operating Systems, Computer Networks, Software Engineering, Data Algorithms and Analysis, Object Oriented Programming, Database Management, Java Programming, Python Programming, MERN Stack.

Experience

Web Development Internship

Nov. 2023 - January. 2024

@ INTRAINZ INNOVATION

HTML, CSS, JavaScript, Clerkauth, Project Management

- Developed a Learning Management System (LMS) portal as part of a four-person team. Implemented features such as: Enrolled students can watch modules, complete quizzes, and receive automated grading.
- Maintained client-side Authentication Page to ensure secure login and logout.
- Enhanced website user experience through optimization efforts such as: Logical information hierarchy, use of images and videos to enhance content, easy to find buttons.

Skills

Languages: C++, JavaScript, Python, SQL(MySQL/PostgreSQL), HTML/CSS

Frameworks / Libraries: ReactJs, NodeJs, ExpressJs, NextJs, Tailwind CSS, MongoDB, Numpy, Pandas, Matplotlib, Seaborn

Developer Tools: Git-GitHub, Canva, PostMan, Firebase, Vercel, VS Code, npm

Projects

GetHired (MERN Website)

Repository Link

JavaScript, ReactJs, NodeJs, ExpressJs, MongoDB, Tailwind-CSS, FireBase

- Built a completely working job portal using MERN (MongoDB, Express, React, Node.js) and Tailwind CSS. This platform offers a wide range of features designed to make **job searching and posting easier**.
- Users can effortlessly find jobs by using **advanced search filters** to narrow down results based on various criteria.
- Recruiters** can easily post new job openings, manage existing job listings, and update job details as needed.
- Also integrated secure authentication system using **Firebase Authentication**. The entire platform is optimized for mobile devices, providing a seamless experience for users on the go.

WhatsChat (Data Analytics)

Repository Link

Python, Numpy, Pandas, Matplotlib, Seaborn

- Created an online Whats App chat analysis tool which is designed to **extract valuable insights** from your group or one-on-one conversations. By analyzing your chat data, WhatsChat provides **detailed statistics and visualizations**.
- This app allows you to gain a deeper understanding of your communication patterns.
- Integrated features such as top statistics, monthly and daily timelines, activity analysis, top chatters, word usage, emoji analysis.
- Also added a **Message Extractor tool** which allows users to extract messages for specific dates, tailoring the analysis to their needs.

Resume Builder (NextJs Website)

Repository Link

TypeScript, NextJs, Tailwind-CSS, Prisma, OAuth, Supabase(PostgreSQL), Stripe

- Created an online tool to help people build professional resume quickly and easily. The platform offers **multiple templates** with **customization options** to create resume according to individual needs and preferences.
- Implemented OAuth authentication to enhance **user security** and streamline **admin access**.
- Integrated Stripe payment gateway to allow users to **subscribe to premium / paid** templates.

Training

Front End Web-Development

June. 2024 - August. 2024

IBM SkillsBuild

JavaScript, ReactJs, Testing and Deployment, Project Management

- Gained front-end development expertise through a structured training program encompassing **13 in-depth project-based modules**. Successfully applied acquired skills on front-end projects, demonstrating proficiency under evaluation.

Positions of Responsibility

Event Handler - Tech Vision Alliance (TVA): Successfully led and executed two **Web Development** and **UI/UX** focused events.
